

UPC card

The UPC card is an exclusive identification tool for members of the university community (students, PDI, PAS) and for members of the UPC Group and related entities. It is essential to access some of the services that the UPC makes available to the community, among others, access to the UPC libraries, and some of the activities of the Sports Service.

In addition to allowing visual identification, it incorporates different technologies that make it possible to control access to UPC buildings and car parks, control markings or record the digital certificate, which guarantees that the person is who they say they are (authenticate) and collects, if it has, the recognized rights (authorization).
